**Software Engineer**                                                                 Mar 2025 – Present
Simplifying Skills Pvt. Ltd                                                        *Gurugram, Haryana*

**Company Website Development – Simplifying Skills**
**Role:** Full Stack Developer
**Technologies:** React.js, Node.js, Express.js, MongoDB, HTML, CSS, Bootstrap, Material UI
**Description:** Built a fully responsive and dynamic company website using React.js and Node.js. Created RESTful APIs for data communication and used MongoDB for database management. Focused on clean UI, smooth functionality, and real-time content updates.

**Responsibilities:**

- Designed and developed several key pages for the company website.
- Created and integrated APIs for dynamic data handling.
- Managed data operations using MongoDB.
- Ensured mobile-friendly and responsive design with Bootstrap and Material UI.
- Collaborated with the team to deliver efficient and user-friendly features.
- Currently working on a new education application for schools and colleges.
- Assisted in debugging, testing, and deployment processes.

**Trainee Engineer**                                                                 Sep 2024 – Mar 2025
Numeric Infosystem Pvt. Ltd                                                                 *Gwalior*

**Job Portal – Job Spider**
**Technologies:** React.js, Node.js, Express.js, MySQL, HTML, CSS, Bootstrap, Material UI
**Description:** A web platform that connects companies with job seekers. It includes a React.js frontend, Node.js backend, and MySQL database for smooth data management. The system focuses on a user-friendly interface, secure authentication, and efficient interaction between recruiters and candidates.

**Responsibilities:**

- Developed the frontend using React.js with reusable and interactive components.
- Created RESTful APIs with Node.js and Express.js for seamless client–server communication.
- Managed database operations such as data storage, retrieval, and updates using MySQL.

- Implemented secure login and registration features for users.

- Designed responsive and attractive layouts with Bootstrap and Material UI.

- Built features like job posting, job search, and application tracking.

- Worked with the backend team to integrate APIs and improve data flow.

- Tested and debugged the application to ensure high performance and reliability.

## PROJECTS

**JobSpider – Job Portal Platform**
**Role:** Full Stack Developer
**Tech Stack:** React.js (Frontend), Node.js + Express (Backend), MySQL (Database)
**Project Link:** Add Link Here
**Description:** Created a job portal platform where job seekers can browse and apply for jobs, while companies can post job openings and manage applicant data. Implemented secure user authentication, job posting modules, application tracking, and admin control features.

**E-commerce Web Application**
**Tech:** React.js, Node.js, Express.js, MySQL, Redux, HTML, CSS, Material UI, Razorpay
**Project Link:** Add Link Here
**Description:** Developed a complete e-commerce web application from scratch, featuring product listings, cart management, checkout, and an admin dashboard. Integrated Razorpay for secure online payments and order processing.

**Travel Website – Shubh Trip Travels**
**Role:** Full Stack Developer
**Tech:** React.js, JavaScript, Material UI
**Project Link:** Add Link Here
**Description:** Developed a responsive travel website from scratch using React.js and Material UI, focused on a modern interface and smooth user experience. Integrated Google Sheets to store and manage user form submissions effectively.

## EDUCATION

**Master of Computer Applications** 2020 – 2022
ITM University, Gwalior (M.P)

**Bachelor of Science (Mathematics)** 2017 – 2020
Gwalior (M.P)

## CERTIFICATIONS
